

DREAMWORKS.
HOW TO TRAIN YOUR
DRAGON
3D
HEIGHT CHART

MATERIALS

- 12 letter size (8.5"x 11") sheets of paper
- Color Printer
- Scissors
- Clear Tape

INSTRUCTIONS

Hi Kids! Make sure that you always ask for a parent's or caregiver's help before starting any project. You don't want to get yourself into hot water, so read the instructions carefully.

1. Print out all pages of poster art work, and trim off excess white areas with scissors.
2. Arrange pages side-by-side in order by their numbers with the artwork facing you, and line up the artwork edges.
3. Place clear tape along the edge where the pages meet, connecting all of the pages.
4. Turn the connected pages over, so the artwork faces down and you only see the white side of the paper.
5. Repeat step #4 by placing tape along the back of the poster (where the pages meet).
6. Trim any excess paper off of the edges.
7. Enjoy your official HOW TO TRAIN YOUR DRAGON 3D height chart!
